Major sports teams world wide use our technology for both training and repair.

Celebrities, physiotherapists, doctors, sports therapists, personal trainers, professional teams and athletes are all now utilizing this training breakthrough to repair injuries faster and target weak muscle groups quickly.

You get more oxygen to your cells. **The Jiggler technology** forces your muscles to pump up to **40 vibrations per second**. These vibrations force blood and vital oxygen out to every cell which nourishes and repairs them. You will feel the itching and tingling on your skin after about 5 minutes. This is the blood and oxygen being pumped right to the surface of your skin (if you don't feel this, you are dehydrated and need to drink more water. **Hydrate with sacred scalar water structured with your own intent and speed up your results.** When you supply your body with abundant amounts of oxygen, all cancer cells, viruses, harmful bacteria, toxins, pathogens and disease microorganisms are killed; they cannot survive in a high-oxygen environment.

The Jiggler Plus also includes our proprietary **Bio-Frequency Audio Programs**. It is completely safe. This is not anything you need to consume or put on your body; it is a sound program you simply listen to for an hour a day, or so. The sounds in the program are irrelevant, there are powerful bio-frequencies imbedded in the sound on a barely audible level. You can play this frequency program in your home, at your office, in your car, or while you're sleeping, even at very low volume levels, and experience the benefits. No extra effort or attention is required.

When cohesive sound therapy infuses proper, targeted frequency-patterns which reinforce all organs, the vibrations of any disruptors (such as EMFs, chemicals, pesticides etc.) are neutralized and the **correct bio-frequency field** for the human body is re-established. This is the basis for natural physical improvements and self-healing.

"**The Doctors**" is a prominent American T.V., daily talk show, nationally syndicated. They recommended and demonstrated Vibration Technology for its health benefits.

2. What do I have to do?

You can simply stand on the **vibrating & oscillating platform**, or you can choose specific body positions for more targeted exercises. **Extensive guidance & instructions** are included for your use.

To maximize your benefits, please listen to our included bio-frequency activation program while you are vibrating. You can listen additional times, if you like.

I highly recommend scheduling a **Wellness Assessment to set Progress Targets** with our professional coaches, at least once every month. These **sessions are conducted over the phone**, with clients all over the world. Group sessions can be scheduled by special request. Phone **250 835-8236** or email info@sacred-soul-sounds.ca

3. In a few lines, can you explain the technology?

The Jiggler includes our proprietary platform, for both oscillation and vibration and is designed to activate glands and metabolism, reshape the body by "melting" the abnormal fat, regulates enzymes, requires much less exercise, and promotes rejuvenation and an overall feeling of well-being.

The Jiggler Plus adds the HeartMind Institute Bio Frequency Sound Programs which cause your body's cells to communicate properly in your body, and creates an "organized energy field" and not be disrupted by damaging frequencies. It works on a deep cellular and DNA level by direct bio activation.

For those of you who know a little bit more about these technologies, please note emphasis is on direct coherent activation, rather than brain-wave alterations.

4. What is the technology, in a few words?

This **Swiss/Canada Quantum Technology** was initiated from CERN (Switzerland). The program uses combined, advanced Vibration Technology and Cellular Bio-Frequency activation. The **vibrating & oscillating platform** can create from 12,000 - 24,000 muscle contractions, in 10 minutes.

The Jiggler is fully supported exercise. The platform you stand on produces vibration, your **muscles stretch and contract up to 40 times per second**. In 10 minutes, you get a **whole body workout** because you worked all your muscles at the same time.

The concept of Whole Body Vibration (WBV) was developed 40 years ago by Russian scientists for cosmonauts. They could not stay in space for any length of time without bone density loss and muscle loss.

NASA has studied and used it for 10 years. It is on the space station along with a treadmill. These 2 machines allow them to stay in space for over 400 days with no muscle or bone loss.

The Jiggler technology is globally recognized as the most advanced and customer friendly application result.

Should You Take All This Seriously?!!

- ✔ The simple fact is this: Obesity and lack of exercise is a silent killer. It affects you deeply on a cellular level, and causes massive cellular dysfunction, leading to many illnesses and even Heart Attack and Stroke, Diabetes, Cancers and Other Diseases
- ✔ In 1930, Dr. Otto Warburg won a Nobel Prize for Science when he revealed that most disease is caused by insufficient levels of oxygen in your body. In fact, his studies confirm that if you deprive a cell 35% of its required levels of oxygen for 48 hours, the cell is likely to become cancerous. I bet you didn't know we all suffer from oxygen deprivation and everyday feel its effects from poor concentration and alertness to lack of energy. Lack of oxygen is the underlying cause of cancer and most other diseases. For example, over 40% of Canadians will develop cancer in their lifetime. You have to get more oxygen to your cells!!!
- ✔ **The Jiggler Plus** Deluxe vibration technology induces your muscles to pump up to 40 vibrations per second. This vibrations force blood and vital oxygen to every cell in order to nourish and repair them. You may feel the itching and tingling on your skin after about 5 minutes. This is the blood and oxygen being pumped right to the surface of your skin (if you don't feel this, you may be dehydrated and need to drink more water). **Hydrate with sacred scalar water structured with your own intent and speed up your results.**
- ✔ When you supply your body with abundant amounts of oxygen, all cancer cells, viruses, harmful bacteria, toxins, pathogens and disease microorganisms are killed because they cannot survive in a high-oxygen environment. Experience your energy and concentration come surging back!
- ✔ Cellulite. Every woman is worried about this. Men, yours is that spare tire around your waist. Cellulite is stored toxins; you need to get rid of it. Positive effects of the **Jiggler Plus** approach include lymph drainage and blood circulation.
Jiggler Plus strengthens collagen and releases human growth hormone (HGH) which helps to flush and fight against cellulite.
- ✔ It is scientifically confirmed there is considerably more fat reduction with our [The Jiggler](#) Plus program. Only 10 minutes three times a week, rather than aerobic activity, for one hour, three times per week.
